(February X, 2024) - Empress Of shares her new single, "Preciosa," which continues to show her versatility as she builds anticipation for her forthcoming album, *For Your Consideration*, due March 22nd via Giant Music. The club-ready single features syncopated vocals and hard-hitting 808s and follows a recent feature on Shygirl's *Club Shy* EP and single "What's Love" featuring LA band MUNA.

At first, Empress Of announced single-night album release shows in Brooklyn, Los Angeles, and Toronto. However, due to overwhelming demand and the success of two recent sold-out shows in London and Paris, she has added multiple additional shows in these cities from May through early June.

For Your Consideration is a bi-lingual album that reflects on the transactional nature of love and sex, which is mirrored by the ephemeral sense of existence in the entertainment industry. The album, executive produced by Empress Of, was written in LA, Miami, and Montreal with a collection of songwriters and producers, including Nick León, Billboard, Valley Girls, Cecile Believe, and Umru.

This album builds upon the impressive track record of previous releases by Empress Of, including *I'm Your Empress Of* from 2020 and the *Save Me* EP from 2022. She has collaborated with Top 40 pop artists like Khalid, cultural icons like Blood Orange, Lewis OfMan, DJ legend Boyz Noise, and many more. Last year the singer-songwriter also opened for Carly Rae Jepsen on her North American tour, in addition to wowing audiences at festivals like Outside Lands and Corona Capital.
